CANADA

MINISTER OF NATIONAL HEALTH AND WELFARE

MINISTRE DE LA SANTÉ NATIONALE ET DU BIEN-ETRE SOCIAL

It is with great pleasure that I welcome you to the Fifth World Conference on Smoking and Health, which is being held in Winnipeg, Canada, July 10-15, 1983.

In the tradition of previous world conferences, Canada is pleased to host this important event which brings together prominent researchers, educators and practitioners in the smoking and health field. The Conference program will provide you with an opportunity to learn about current trends in smoking habits in various countries, the latest research on the health consequences of smoking, mounting smoking problems in developing countries, and innovative programs for smoking prevention and public education.

Smoking is one of the serious public health problems of our times, yet we still have a long way to go both in terms of our understanding of the problem and in dealing with the various related health and social issues. I am sure that your discussions at this Conference will further advance our knowledge about smoking and I wish you every success in your future endeavours.

CANADA

MINISTER OF NATIONAL HEALTH AND WELFARE

MINISTRE DE LA
SANTÉ NATIONALE ET DU BIEN-ÊTRE SOCIAL

Je suis très heureuse de vous souhaiter la bienvenue à la Cinquième conférence mondiale sur l'usage du tabac et la santé qui se tient à Winnipeg (Canada), du 10 au 15 juillet 1983.

Continuant la tradition des conférences antérieures sur le tabac et la santé, le Canada se fait un plaisir de rassembler les plus éminents chercheurs, éducateurs et praticiens qui oeuvrent dans le domaine du tabagisme et de la santé. Cette conférence vous permettra de connaître les tendances actuelles concernant l'habitude de fumer dans divers pays, les plus récentes recherches concernant l'effet du tabac sur la santé, les problèmes croissants causés par le tabac dans les pays en voie de développement et les programmes innovateurs de prévention et d'enseignement public en matière de tabagisme.

Le tabac est, de nos jours, un des problèmes d'hygiène publique les plus sérieux, et pourtant il nous reste encore de longs efforts à déployer pour comprendre le problème et traiter des diverses questions sanitaires et sociales connexes. Je suis certaine que votre apport à cette conférence sera des plus utiles.

Je vous souhaite tout le succès possible dans vos projets futurs.
